RAINBOW KEYS · SHEET GUIDE v1-4

How to write your own music as a plain text sheet (`.txt`) and get it into the game. Every note lands on its letter's lane (C D E F G A B); sharps and flats keep their real sound.

1 · GET YOUR SHEET IN

- **Text sheet:** save it as a `.txt` file in `public/Inputs`. It appears in the song list with a TXT badge.
- **From the game:** Songs → **UPLOAD SHEET**. To save uploads and edits into Inputs, click **INPUTS → CONNECT FOLDER** and pick `public/Inputs` (Chrome or Edge). Other browsers keep the sheet in the browser.
- **MIDI** (`.mid`) or **MusicXML** (`.musicxml` , `.mxl`): pick **TREBLE CLEF**, **BASS CLEF**, **BACKING** or **OFF** for each part.
- **Photo or PDF** of a score: it is shown beside the editor so you can type the notes in.
- **EDIT** any song: SHEET (text) or ROLL (grid) tab, then SAVE (Ctrl+S).

2 · TOP LINES

`title: My Song`	name in the song list
`by: Beethoven`	composer
`tempo: 54 Adagio`	quarter-note beats per minute (+ optional word)
`time: 12/8`	time signature
`key: Db`	key signature: in Db every D E G A B is flat unless you write `Dn`
`unit: whole`	what lengths after `:` mean (section 6)
`perfect: 45`	this song's Perfect window in ms (default 40–50)

3 · WHICH HAND · LINE LABELS

`RH:`	treble clef (right hand), melody
`RHA:`	treble clef, accompaniment (rolling figures, inner notes)
`LH:`	bass clef (left hand), bass line
`LHA:`	bass clef, accompaniment
`LHM:`	bass clef, melody (when the tune is in the left hand)
`BG:`	backing, always played for you

On the song screen you play **TREBLE CLEF** (RH + RHA), **BASS CLEF** (LH + LHA + LHM) or **BOTH**. The rest is played for you. Advanced parts (Settings) let you pick MELODY / ACCOMP. / BASS instead.

4 · NOTES

`C D E F G A B`	notes; `r` is a rest
`C5` `G3`	octave number: C4 is middle C. No number means octave 4.
`F#` `Bb` `En`	sharp, flat, natural (overrides the key)
`[C E G]` `C+E+G`	chord: played together; the length goes after `]`
`do re mi fa sol la ti`	also accepted
`1=C` then `1 2 3`	numbered notation; `5'` higher, `5,` lower, `0` rest

5 · BARS, PARAGRAPHS, CHANGES

- `|` is a bar line. Optional, but it lets the game check each bar adds up to the time signature.
- **A blank line starts a new paragraph**, like a new line of printed music: every hand starts it together. A hand can skip a paragraph and simply rests.
- In one paragraph, each hand's line should add up to the same length.
- `time: 2/2` or `tempo: 38` on its own line after some notes: a change from that point. `{tempo 70}` inside a line changes speed right there.
- `//` at the start of a line, or after a space, is a comment. A dash on its own (`C -`) holds the note one more beat.

6 · LENGTHS

Suffixes count in beats (1 beat = a quarter note):

`C`	1 beat (quarter)	`C-` `C---`	2 beats, 4 beats
`C/`	½ beat (eighth)	`C//`	¼ beat (sixteenth)
`C.`	dotted (1½ beats)	`C-.`	dotted half (3 beats)

Exact lengths `:n` or `:p/q` follow `unit:`

`unit: beat`	default. `:1` quarter, `:1/2` eighth, `:1/3` triplet eighth, `:4` whole note
`unit: whole`	note values. `:1/4` quarter, `:1/8` eighth, `:1/2` half, `:1/12` triplet eighth
`unit: bar`	part of a bar. In 12/8, `:1/12` is one eighth

No `unit:` line? The game tries each and uses the one that makes your bars add up, using your `|` bar lines (the editor shows "guessed").

`F5:1/2-` : a dash right after an exact length is a tie mark and adds nothing. A dash glued to the next note (`F5:1/2-r:1/8`) just separates them.

The same bar three ways (4/4): `C D/ E/ F-` = `C:1 D:1/2 E:1/2 F:2` = (`unit: whole`) `C:1/4 D:1/8 E:1/8 F:1/2`

7 · EXAMPLE

```
title: Ode to Joy
by: Beethoven
tempo: 100
time: 4/4
key: C
perfect: 45

RH: E E F G | G F E D | C C D E | E. D/ D- |
LH: C3- G2- | B2- G2- | A2- E2- | G2- G2- |

time: 3/4
tempo: 90

// :1/8 means an eighth here, so the game reads unit: whole
RH: C:1/4 E:1/8 G:1/8 C5:1/4 | G:1/2 E:1/4 | C:3/4 |
```

8 · CHECK YOUR SHEET

Messages show under the sheet in the editor:

- **Didn't understand "…"**: a typo or a symbol the game doesn't know.
- **A bar in LH adds up to 8 beats, but a 12/8 bar is 6 beats**: a length is off in that bar.
- **The hands don't add up to the same length**: one hand's line in that paragraph is longer than the other.

Click **Line N** to jump there. Select any message to copy it, or press **COPY** to copy them all.

> Tip: use **LISTEN** and **TEST PLAY** in the editor. If it sounds wrong, the lengths usually are.
